

EASY STUDENT DEVICE DEPLOYMENT

TURNKEY DEPLOYMENT SERVICES

Asset tagging, software installation, laser etching and performance testing—Lexicon deployment services prepares each of your devices for immediate use, saving you time, money, and hassle.

SHIPPING & RECEIVING

Have new devices shipped directly to our facility for receiving.

FRIENDLY PACKAGING & RECYCLING

We are committed to responsible recycling of all batteries, plastic, PCB boards, glass, and meta. Lexicon uses a certified ISO 14001 disposal company.

ASSET DATA CAPTURE & TAGGING

Save time by having our team input asset serial numbers and tag your device. Ask us about creating school branded tagging!

UNBOXING & KITTING

Waste removal and repackaging for straight-from-the box use, including the addition of accessories such as cases and screen protectors. Our repackaging results in 100 tons less cardboard being delivered to districts!

DEVICE IMAGING

We'll fully configure your devices with the software, apps, and services you need.

PERFORMANCE TESTING

Our certified technicians test every device for full functionality and assess against any common startup failures before it leaves our facility.

LASER ETCHING

We can engrave your school's name, logo, and more.

CUSTOMIZED DISTRIBUTION

We'll deliver your devices to your district by school, classroom, or directly to students via onsite coordination with your team.

PREPPING TECHNOLOGY IS LABOR INTENSIVE

Depending on the size of your operation, Deployment Services could save you tremendous amounts of time and hassle:

40,000 tasks
for 5,000 devices

80,000 tasks
for 10,000 devices

1,020,000 tasks
for 150,000 devices
